Accomplishing Our Mission with 128 New Units!

Chalet Grand Opening—18 Units

On September 15th, King County Executive Ron Sims joined many of the funders, project team, consultants, and advisors who made the beautiful renovation of Chalet Apartments possible. Sims, Executive Director Linda Hall, and Board President Clare Moe had the newly installed playground as backdrop for their speeches and presentations.

Chalet's New Playground

Chalet Apartments, with 18 two-bedroom units, is ideally located just off of 148th Ave. SE in Bellevue, adjacent to the campus of BCC and near services and the Factoria shopping districts. Four units are set aside for residents transitioning directly from homelessness and working with YWCA case workers to ensure their move from homelessness is a permanent one.

Rose Crest Groundbreaking—50 Units

Staff, funders, project team members, consultants, and advisors gathered on October 18th, 2005 for an exciting groundbreaking ceremony and celebration of St. Andrew's Housing Group's 16th Anniversary. The ceremony was held at the building site of this 50-unit, new construction project that is part of the Talus master development on Cougar Mountain in Issaquah. Planning for Rose Crest at Talus began in spring 2001 when SAHG responded to a Request for Concept Proposal issued by the City of Issaquah. Under the name of East Village, planning and financing for this development took four years with construction officially starting May 30, 2005 and scheduled for completion summer 2006.

Purchase of Mine Hill / 280 Clark—60 Units

St. Andrew's Housing Group is proud to report the October 13, 2005 purchase of two existing properties for use as affordable housing. Both properties are located in Issaquah. "280 Clark" is the name of the 32-unit property that will

Mine Hill— 28 Units

provide 30 two-bedroom units and 2 one-bedroom units. "Mine Hill", the 8-unit property, will provide 8 one-bedroom units, 12 two-bedroom units, and 8 three-bedroom units. These properties bring SAHG's total portfolio up to ten properties with eventually 318 units of affordable and transitional housing. This is possible because of consistent community member investment in SAHG. *Thank you!*
